Subject: Your access to the EmoReact Dataset has been activated

Dear User,

Thank you for requesting an account for the EmoReact Dataset. EmoReact's folder has been shared with you on Box in a separate email. Please let us know if you have any questions.

P.s. I am attaching the name of videos in train, validation and test set in the order that they are in labels and features. This piece is missing from the zipped file.

Regards,
Behnaz
